1. Between 0800 and 1200 on 9 August 1954, 34 MiG-15s were observed at Deutsch Wagram airfield. There was a 10/10 overcast at an altitude of about 1,000 meters and intermittent heavy rain. After 1000, the ceiling became 4/10, the visibility very good, with a southwesterly wind of about 8 km/h. No air activity was conducted.<sup>1</sup> A truck with a hoisting gear, truck                      with driver wearing black-bordered blue epaulets, and 1 gray crate were seen in the area of the motor vehicle repair shop. 25X1
  2. Vehicular traffic observed in front of the "large building" in the Strasshof military post involved trucks                     , and van-like truck                      all with drivers wearing black-bordered blue epaulets. The building No 26 Lendler Gasse which was no longer used as storage facility for solid fuels apparently housed a signal center. Bus                      similar to mobil flight control stations, was parked in the yard of the building.
- Comment. Deutsch Wagram airfield is believed to be still occupied by a Soviet fighter regiment and the superior division headquarters.
